

another test with title z for testing sort order

statt einer relativen `resources/DSC08138.JPG` referenz. Problem in latex.
die absolute `/home/frank/Workspace11/ssg/docs/site/dough/Blog/SubBlog/resources/DSC08138.JPG` funktioniert. der file ist `/home/frank/Workspace11/ssg/docs/site/baked/Blog/SubBlog` in warum die relative nicht?

An example post sorted at last and an image
